## Summary

Aspiring Software Engineer with a strong foundation in Data Structures and Algorithms using Java and Python. Proficient in Django REST Framework and iOS app development with a passion for solving real-world problems through technology. Demonstrated leadership and teamwork as Treasurer of E-Cell at Sharda University.

## Education

### Sharda University

Bachelor of Technology in Computer Science and Engineering

CGPA: 7.9

2022–2026

### St. Martin Diocesan School

Class XII (CBSE)

72%

2021

Class X (CBSE)

82%

2019

## Technical Skills

**Languages:** Java, Python, Swift, SQL

**Frameworks & Development:** SwiftUI, Django

**Tools & IDEs:** Xcode, Visual Studio Code (VS Code), PyCharm, IntelliJ IDEA, Cursor

**Computer Fundamentals:** Data Structures & Algorithms, Object-Oriented Programming (OOPs), DBMS

## Experience

### HCL Tech | Intern

November 2025 - Present

- Developed a full-stack SOP Management System using Django REST Framework and Angular, implementing JWT-based authentication, role-based access control (Admin/User), MySQL database integration, and RESTful API communication between frontend and backend.
- Developed 30+ RESTful API endpoints for user management, hierarchical process organization, and file upload functionality supporting documents, images, and video URLs.
- Designed MySQL database schema with 7 interconnected tables using Django, implementing foreign key relationships and user assignment system for managing organizational workflows.

## Projects

### Doctor Prescription App | *Swift, SwiftUI, Django* | [Repository Link](#)

July 2025

- Developed digital prescription system replacing handwritten prescriptions, enabling doctors to create, store, and instantly access patient records.
- Built intuitive SwiftUI interface with streamlined patient entry, symptom/test selection, and customizable medication scheduling for workflow optimization.
- Developed a Django-based backend with secure cloud storage and REST APIs, providing real-time sync of digital health records for doctors and patients.

### Motion Link | *Python, OpenCV, MediaPipe, gTTS* | [Repository Link](#)

September 2024

- Built real-time hand gesture recognition system using OpenCV and MediaPipe for accurate hand tracking, with custom TensorFlow classifier to detect and translate sign language letters into text.
- Translation into regional languages making communication easy for users, and integrated text-to-speech functionality.
- Implemented intelligent letter detection with 1-second confirmation threshold and automatic word formation, enabling seamless communication for hearing-impaired users across multiple languages.

## Achievements

### Innoquest AccessHack – Build with Copilot at Microsoft

September 2024

- Selected among the Top 10 teams.
- Showcased Motion Link, a real-time sign language recognition and translation system.

### TCS iON National Qualifier Test (NQT) | [Certificate Link](#)

September 2025

- Achieved **100% in coding** section and overall score of **89.08%**.

### Problem Solving & Competitive Programming

- Solved **440+** problems on LeetCode and **600+** total across platforms.
- Achieved LeetCode contest rating: **1636** and Codeforces rating: 1050+.

## Extra Curricular Activities

### Treasurer | E-Cell, Sharda University

Jan 2024 – Nov 2024

- Managed a 2 million university fund and secured sponsorships to drive the successful execution of entrepreneurship focused events and initiatives.

### National-Level Skating

- National-level skater with 80+ medals, CBSE Games gold medalist, and 5 time state champion representing Delhi in various competitions.
